Dear All

Greetings from T&P!!

The Training & Placement Department is organizing the second AMCAT Assessment Test for B.Tech Final & Pre-Final Year Students on 11th April 2017. The test is mandatory for all the pre-final year students (2014 batch) who are all clear in academics or having up-to two backlogs whereas for the final year students it's choice based optional.

AMCAT (Aspiring Minds' Computer Adaptive Test) World's Largest Employability Test. AMCAT is a computer adaptive test which measures job applicants on critical areas like communication skills, logical reasoning, quantitative skills and job specific domain skills thus helping recruiters identify the suitability of a candidate. AMCAT is fast emerging as an industry benchmark with 3000+ companies using it as a compulsory testing mechanism for entry level roles. AMCAT's comprehensive feedback report will help candidates identify strong and weak areas so that one can work to improve in highlighted areas or apply for specific industries/jobs where your strengths are better suited.

- By performing well in the AMCAT, a good candidate can stand out amongst their peers.
- Since inception, more than 2 million students have successfully taken the AMCAT.
- Every month, more than 1.5 lakh interview calls go out based on a student's AMCAT score.

All students who appear for AMCAT are put on AMCAT exclusive portal, where 3000+ companies such as Accenture, NTT Data, Mind Tree, Microsoft Research, Mphasis, Tata Motors, John Deere, AMDOCS, HCL Technologies, Ericsson, Evalueserve, Tally Solutions, Hyundai, Deloitte, Amazon, Dainlex, etc. continuously shortlist students according to their scores and profile. Apart from industry, leading job search providers like LinkedIn and Monster.com accept the AMCAT test as an employability certification.

You are requested to disseminate the information to all the pre-final and final year students and manage healthy participation. The HsOD are requested to forward the list of students to T&P Deptt latest by 28th March 2017.

Employability Quantified

About Aspiring Minds:

Aspiring Minds' key mission is to quantify employability to provide scalable and scientific feedback to students, institutions, industry and governments. It has pioneered the concept of large-scale employability assessments, a SAT/GRE for jobs, required across the world to drive accountability and meritocracy in higher education and employment markets. Aspiring Minds has represented the concept at various forums and media outlets including British Council Global Education Dialogue, MIT (USA), IBM Watson Research Center, The Economist and Forbes Magazine.

Aspiring Minds' AMCAT is the largest employability test in India with growing presence in Philippines, Middle East, Africa and USA. AMCAT assesses job-seekers on their language, aptitude and functional skills. AMCAT, a world-class employability assessment tool, is a statistically reliable adaptive test which has been benchmarked with multiple multi-national corporations to ensure high test validity. It is the only standardized test of employability to enable student and institutions to get detailed job-suitability feedback.

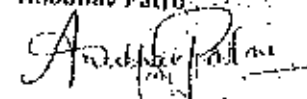

All test modules in AMCAT provide high measurement accuracy and it also contains a slew of simulation-based assessments: Compiler integrated simulated test of programming, behavioral assessments and automatic spoken English assessment. Whereas students and institutions use AMCAT to get employability certification and feedback, companies use it to dramatically improve interview convert rates and organizational efficiency.

A million students have taken the AMCAT and each year another 350K students take the test to assess their job fitness. More than 600 corporations accept AMCAT as a standard for recruitment assessment. These include companies such as Deloitte, Accenture, Wipro, Sapient, Axis Bank, Genpact, Daimler, Coca Cola and PwC.

Aspiring Minds' employability researches (such as National Employability Reports) tracks large scale employability trends and skill gaps. These are regularly referred by international media including The Economist, Wall Street Journal and the Forbes magazine.

- The AMCAT is a computer adaptive test which measures job applicants on critical areas like communication skills, logical reasoning, quantitative skills and job specific domain skills thus helping recruiters identify the suitability of a candidate.
- Post the test, AMCAT also helps match candidates with suitable jobs based on their performance on the test. Presently sixth semester students are eligible to apply for that.

We work alongside industry leading names like Accenture, Snapdeal, Axis Bank, Tata Motors, ITC and many more. Our client list covers multiple industries like IT Services, Banking & Financial Services, Automobiles, Telecom etc.
- There are thousands of small companies which are looking for good talent and provide great opportunities for growth. AMCAT works with more than 500 small and medium enterprises, helping you identify opportunities in companies which you would not typically approach.

Subject: Approval for the Execution of Soft Skills Program

Taking serious concern about the placements of our students, the following deficiencies came to the surface on analyzing the employability potential gap. These attributes being not included in the PTU Academic curriculum are to be inculcated among our students as an add-on activity. These attributes are:

- Language Skills
- Communication Skills
- Personality Traits
- Aptitude building
- Motivation and Inspiration

Taking Cognizance of the situation, the fellow universities such as Chandigarh University, Chitkara University, LPU University, Baddi University are imparting these attributes as a credit course from the first year onwards in their Academic curriculum. The students too realized this shortcoming in their placements and want these attributes to be imparted in their regular curriculum from first year onwards. The students have been charged Rs 1000/- per student as the "Professional Development Fee"

Being a new activity, it would take some time to build up Skills in internal faculty. Therefore, the approach being proposed is to --

- (a) Identify internal faculty with aptitude towards these attributes.
- (b) Build up skills in internal faculty through 'Train the Trainers' program.
- (c) Initially for 2-3 semesters outsource the specialist training.
- (d) Involve own faculty to progressively take on the load from basics to advance attributes.
- (e) Once own faculty is ready to contribute maximum, stop outsourcing.
- (f) Keep building own faculty skills further through 'Quality Improvement Programs' with Experts from outside.

*Approved
President*

Accordingly, we need to partially outsource the above said training initially to manage within financial constraints in the coming semesters. The students will be exposed to Employment Assessment Examination from time to time to keep a check on the standard of the training. The same report will be shared from time to time with the students. The internal faculty would be given PDP load within their normal load and has no additional financial effect.

The financial analysis of the PDP training is attached overleaf. A Committee has been formed for finalizing the syllabi and selection of the trainers. A separate Committee has been formed to monitor implementation and collecting feedback to ensure objectivity and review of the syllabi, if deemed necessary. It is requested to approve the approach and provide 'in principal' approval of the financial transactions as per details shown in the attachment.
