

AN INDUSTRIAL VISIT TO BLUE STAR LIMITED, KALA AMB (HP)

The ISHRAE BBSBEC student chapter organized a visit to 'Blue Star Limited', Kala Amb (HP) for Mechanical Engineering students on 9 May 2022. As part of the visit, students were exposed to the technical aspects of assembly line for split ACs and various sheet metal operations carried out when manufacturing their cabinet. This kind of tailored visit facilitates our students' thought process in adopting the current manufacturing practices.
