

Advancements in Mechanical Engineering

A lecture on Advancements in Mechanical Engineering was conducted by Dr. R.K. Garg Professor in Mechanical Engineering Department of National Institute of Technology Jalandhar on 7th November, 2015. Dr. Garg shared his vast experience in the field of Mechanical Engineering. He motivated the staff members and students to keep on track with the advancements in Mechanical Engineering. He highlighted that keeping in view the advancements in the global market there is need to update the students. For this the students as well as staff members need to keep themselves updated and they require to do new projects and also patent their work.
